Weather Key Points

Regional Operations Center

Western Region

Sunday, July 3

- Near to even below normal temperatures will persist over much of the state through the holiday weekend and into mid week, with mainly minor heat risk concerns across the southern California deserts
 - Much warmer temperatures are forecast to return to many areas late in the week and into next weekend
- Fire weather conditions will remain locally elevated most afternoons and evenings for mountain and foothill locations, the southern deserts, and the Sacramento Valley at times due to persistently breezy conditions each day
 - At this time, widespread critical fire weather (Red Flag) conditions are not expected
- Scattered showers and thunderstorms are expected across far northern California on Sunday, with showers lingering on Monday
 - Most areas will likely not see much rainfall, though a few local heavier downpours are possible
 - No widespread burn scar impacts are expected
 - Otherwise, dry conditions are expected
